Report of Viewers

To the Hon Board of Supervisors
of Yolo County, California:

We the undersigned viewers,
appointed to view and survey the road prayed for in the
petition of J. Maryolf and others filed March 11th 1878, which
road is numbered 137, do hereby report:

That before entering upon our duties we were severally duly
sworn, as appears by the affidavits preceding this report.

That on the 12th day of April 1878, we met and proceeded
to view and lay out the said proposed road, the field notes
and plat of the Survey of which are herewith annexed,
marked "Exhibit A" and made a part of this report; which
field notes and plat correctly show the course, terminus, and
length of said proposed road and the name of the owner of
each tract of land over which the same passes.

That the said road lies in the County of Yolo, and
State of California, in road District Number 3.

That the estimated cost of construction of said proposed
road, as appears to us upon such view is the sum of \$100⁰⁰.

That we gave a written notice of the proposed route to
each owner of land over which the same passes, as appears
by the copy of said notices herewith attached marked "Exhibit B"
and "C" and made a part of this report.

That the following named land owners have consented
in writing to give the right of way for said proposed
road over their lands, to wit: L. L. Burr, P. S. Glasscock,

W. O. Jennings and G. C. Martine, as appears from said written consent attached hereto, marked "Exhibit C" and made a part of this report.

That the following named land owners have not consented to give the right of way and claim the amount of damages set opposite their respective names; and we estimate the actual amount of damages to each at the amount last stated after their respective names:

Name	Am't of Damage Claimed	Unvers Estimate	Am't Damages
W. Clauson	\$ 150.00		\$ 150.00
Mc. A. Rahne	50.00		20.00
W. Dill	500.00		100.00
S. P. Barnes	400.00		150.00
J. J. Blacke	125.00		125.00
Erasmus Jacobs	300.00		200.00
James Root	100.00		100.00
D. N. Mershey	100.00		50.00
Mrs of Gaddis Estate	100.00		100.00
Geo. Glascocke	300.00		400.00
J. N. Jacobs	75.00		— — —

That upon said view we became satisfied that said road would be a great public convenience, that the same is laid out over the most practicable route; and we hereby recommend the establishment of the same in accordance with the field notes herewith presented.

We would further report that the proposed road will be a great public convenience to the people not only of Black Station and vicinity, but also to the citizens at large of the county as well. The ground over which said proposed road passes is good for road purposes and the proposed route can be graded and put in good order at comparatively small expense. There are no

Bridges to build over said route and the only estimate that we can arrive at is one for the sum of \$100⁰⁰ for a small drainway or culvert, at the North West corner of Section 21 T. 11 N. R. 1 E. We would further recommend that said proposed road be laid out sixty feet wide, extending 30 feet on each side of the said center line surveyed and described in said field notes and plat. All of which is respectfully submitted.

Petition

To the Honorable the Board of Supervisors of Yolo
 County:

We the undersigned your petitioners ^{and} Tax
 payers of Road Districts numbers four ^{and} five in said
 County, respectfully show to your Honorable Board,

I. That in 1871, an unsuccessful attempt was made to lay
 out ^{and} establish a public road extending from the N.E.
 corner of a piece of land then owned by W^m Geary, to the
 N.W. corner of land then occupied by one Joseph Gibson
 running diagonally across the lands of James Moore and
 the Gordon Trunk.

II. At the time the attempt was made to lay out
^{and} establish a public highway between the aforesaid points
 the lands between said points was unenclosed ^{and} was
 not in the actual possession of any person whatsoever
 but has since been purchased ^{and} is now reduced
 to the actual possession of one James Moore, one of your
 petitioners ^{and} has always remained unenclosed to the

present time.

III. — Your petitioners are informed ^{and} believe that the Board of Supervisors never obtained jurisdiction to lay out ^{and} establish a road between the points above designated ^{and} their proceedings in ^{and} about the matter of establishing a road between said points, were void ^{and} of no effect.

IV. — And your petitioners would further show that the points above mentioned are described by the U. S. government survey as the North West corner of the fractional Northwest quarter of section number thirty three ^{and} the Northeast corner of the fractional Northeast quarter of Section number thirty one, all in Township N^o 10 North in Range N^o 1 East Mount Diablo Base ^{and} Meridian.

V. — And your petitioners would further show that prior to ^{and} since the aforesaid attempt to lay out ^{and} establish a road as aforesaid there has been much public travel across the aforesaid unenclosed lands between the points above designated but said travel has not been confined to any definite route, but has been indiscriminate over all parts of said unenclosed premises ^{and} without color of right or authority of law, as your petitioners are informed ^{and} believe.

VI. — And your petitioners further show that the lands on a direct line between the points above designated is boggy ^{and} unsuitable for a public highway for which reason the travel between said points has never been confined to the line where said road was attempted to be established.

VII. — That a public road between said points upon suitable lands would be a great public convenience.

VIII. — That James Moore one of your petitioners is the owner in fee of all the lands lying between the points hereinbefore designated.

Wherefore your petitioners pray that your Honorable Board would abandon all claims of right for the public to travel over the several routes heretofore travelled between the aforesaid points on the said lands of the said James Moore.

And further pray that your Honorable Board lay out ^{and} establish a public highway sixty feet in width that shall connect said points ^{and} embrace the lands described as follows; Commencing at a point thirty feet North ^{and} sixty feet west of the Northwest fractional quarter of Section 33 in Township 10 North Range one East Mount Diablo Base ^{and} Meridian ^{and} running thence South $10^{\circ}1'$ West on a line parallel with the East line of the Gordon Grant, 56.63 chains, more or less to a point 60 feet North ^{and} 60 feet west from the South East corner of the Gordon Grant; thence N. $79^{\circ}\frac{3}{4}'$ W. 114 $\frac{1}{2}$ chains more or less to a point 60 feet North from the Southwest corner of said lands belonging to the said James Moore; thence S 60 feet to the S.W. corner of said lands, thence S $79^{\circ}\frac{3}{4}'$ E. 115 chains more or less to the S.E. corner of the Gordon Grant; thence N $10^{\circ}\frac{1}{2}'$ East 57.66 chains more or less to a point 30 feet North from the Northwest corner of the Northward fractional quarter of Section 33 in T₁₀ N.R. 1 East Mount Diablo Base ^{and} Meridian, thence N. 60 feet to the place of beginning.

We further represents to your Honorable Board that James Moore is the only owner of the lands over which said proposed road is located ^{and} that he consents to the location ^{and} establishment of the same. That the said James Moore is the only owner of the lands over which the travel now passes between said points ^{and} he consents that the line of travel be changed to the line of the road proposed to be located.

Bon

The public advantage in the proposed change of the line of travel is to secure more suitable soil for a road & the establishment of a highway by authority of laws of convenience to the traveling public.

Wherefore your petitioners will and pray &c.

County, State of California, do hereby remonstrate against
this Honorable Board granting to James Moore and other
petitioners, their prayer changing the road or highway between
Madison and Woodland said petitioners and applications
of said Moore and others being known as A^o.

Our said grounds of remonstrance are as follows:

1st. That, by changing the road mentioned as asked

Report of Viewers

To the Honorable Board of Supervisors of Yolo County State of California:

We the undersigned appointed by your Honorable Board to view ^{&c} survey a road prayed for by a petition filed with your Honorable Board on the 13th day of May 1878, which said petition is marked Road No 140 respectfully report,

That before entering upon our duties as viewers under said appointments the undersigned John G. Winter and G. B. Kinchloe, before J. E. R. O'Farrell took ^{&c} subscribed on oath hereunto annexed marked "Exhibit A" and the undersigned J. E. R. O'Farrell upon receiving a certificate of the appointments of the undersigned as viewers as aforesaid took ^{&c} subscribed on oath before D. M. Burns Esq., County Clerk, which oath is hereunto annexed ^{&c} marked "Exhibit B".

That on the 29th day of May 1878 the said viewers met ^{&c} proceeded to view ^{&c} lay out said proposed road and on the 3rd day of June A.D. 1878, completed our survey ^{&c} view of said proposed road, also the line of travel between the initial ^{&c} terminal points of said proposed road, also a direct line between said points, the field notes ^{&c} plat of the survey of all of which are hereunto annexed marked "Exhibit C" and made a part of this report.

On said exhibit the dotted black line represents the proposed road; the straight black line represents the line between the initial ^{&c} terminal points and the red line represents the present line of travel between said points; and said exhibit correctly shows the course, termini ^{&c} length of said proposed

roads; of the present line of travel and of the direct line between the initial and terminal points.

We found on the direct line between said points blazed, trees and other indications of said line having been run and surveyed some years previous, to our survey, but found no indications of its ever having been used for public travel or worked or improved as a public highway; and we found some portions of the route, low and swampy and in the opinion of the undersigned unfit for a public road.

In making the survey where the travel now is we found no very definite route, but in the line upwards of twenty crooks and angles and varying in distance from the direct line from eight rods to twenty rods as shown by the field notes.

We find that James Moore is the owner of all the land over which each of the several lines designated extends.

Mr Moore proposes to give the right of way for the proposed road and his written consent for the establishment of the same is herewith filed and marked "Exhibit D".

We estimate that the said James Moore will suffer no loss nor damage by the location and establishment of the proposed road.

We further report that we have notified the said James Moore of the location of the line of survey for said proposed road.

We estimate that there will be no cash to the county of any bridges or grading in the establishment of said proposed road.

By the establishment of said proposed road it would subserve the public convenience by opening a suitable public highway for the travel from the western portions of the County, to the County seat.

And in the opinions of the undersigned said proposed road should be established and the travel between the terminal and initial points of said proposed road where it is now laid, might be discontinued without damage to the County or inconvenience to the public.

We therefore recommend the laying out and establishment of the road as proposed.

All of which is respectfully submitted.

This day of June 1878.

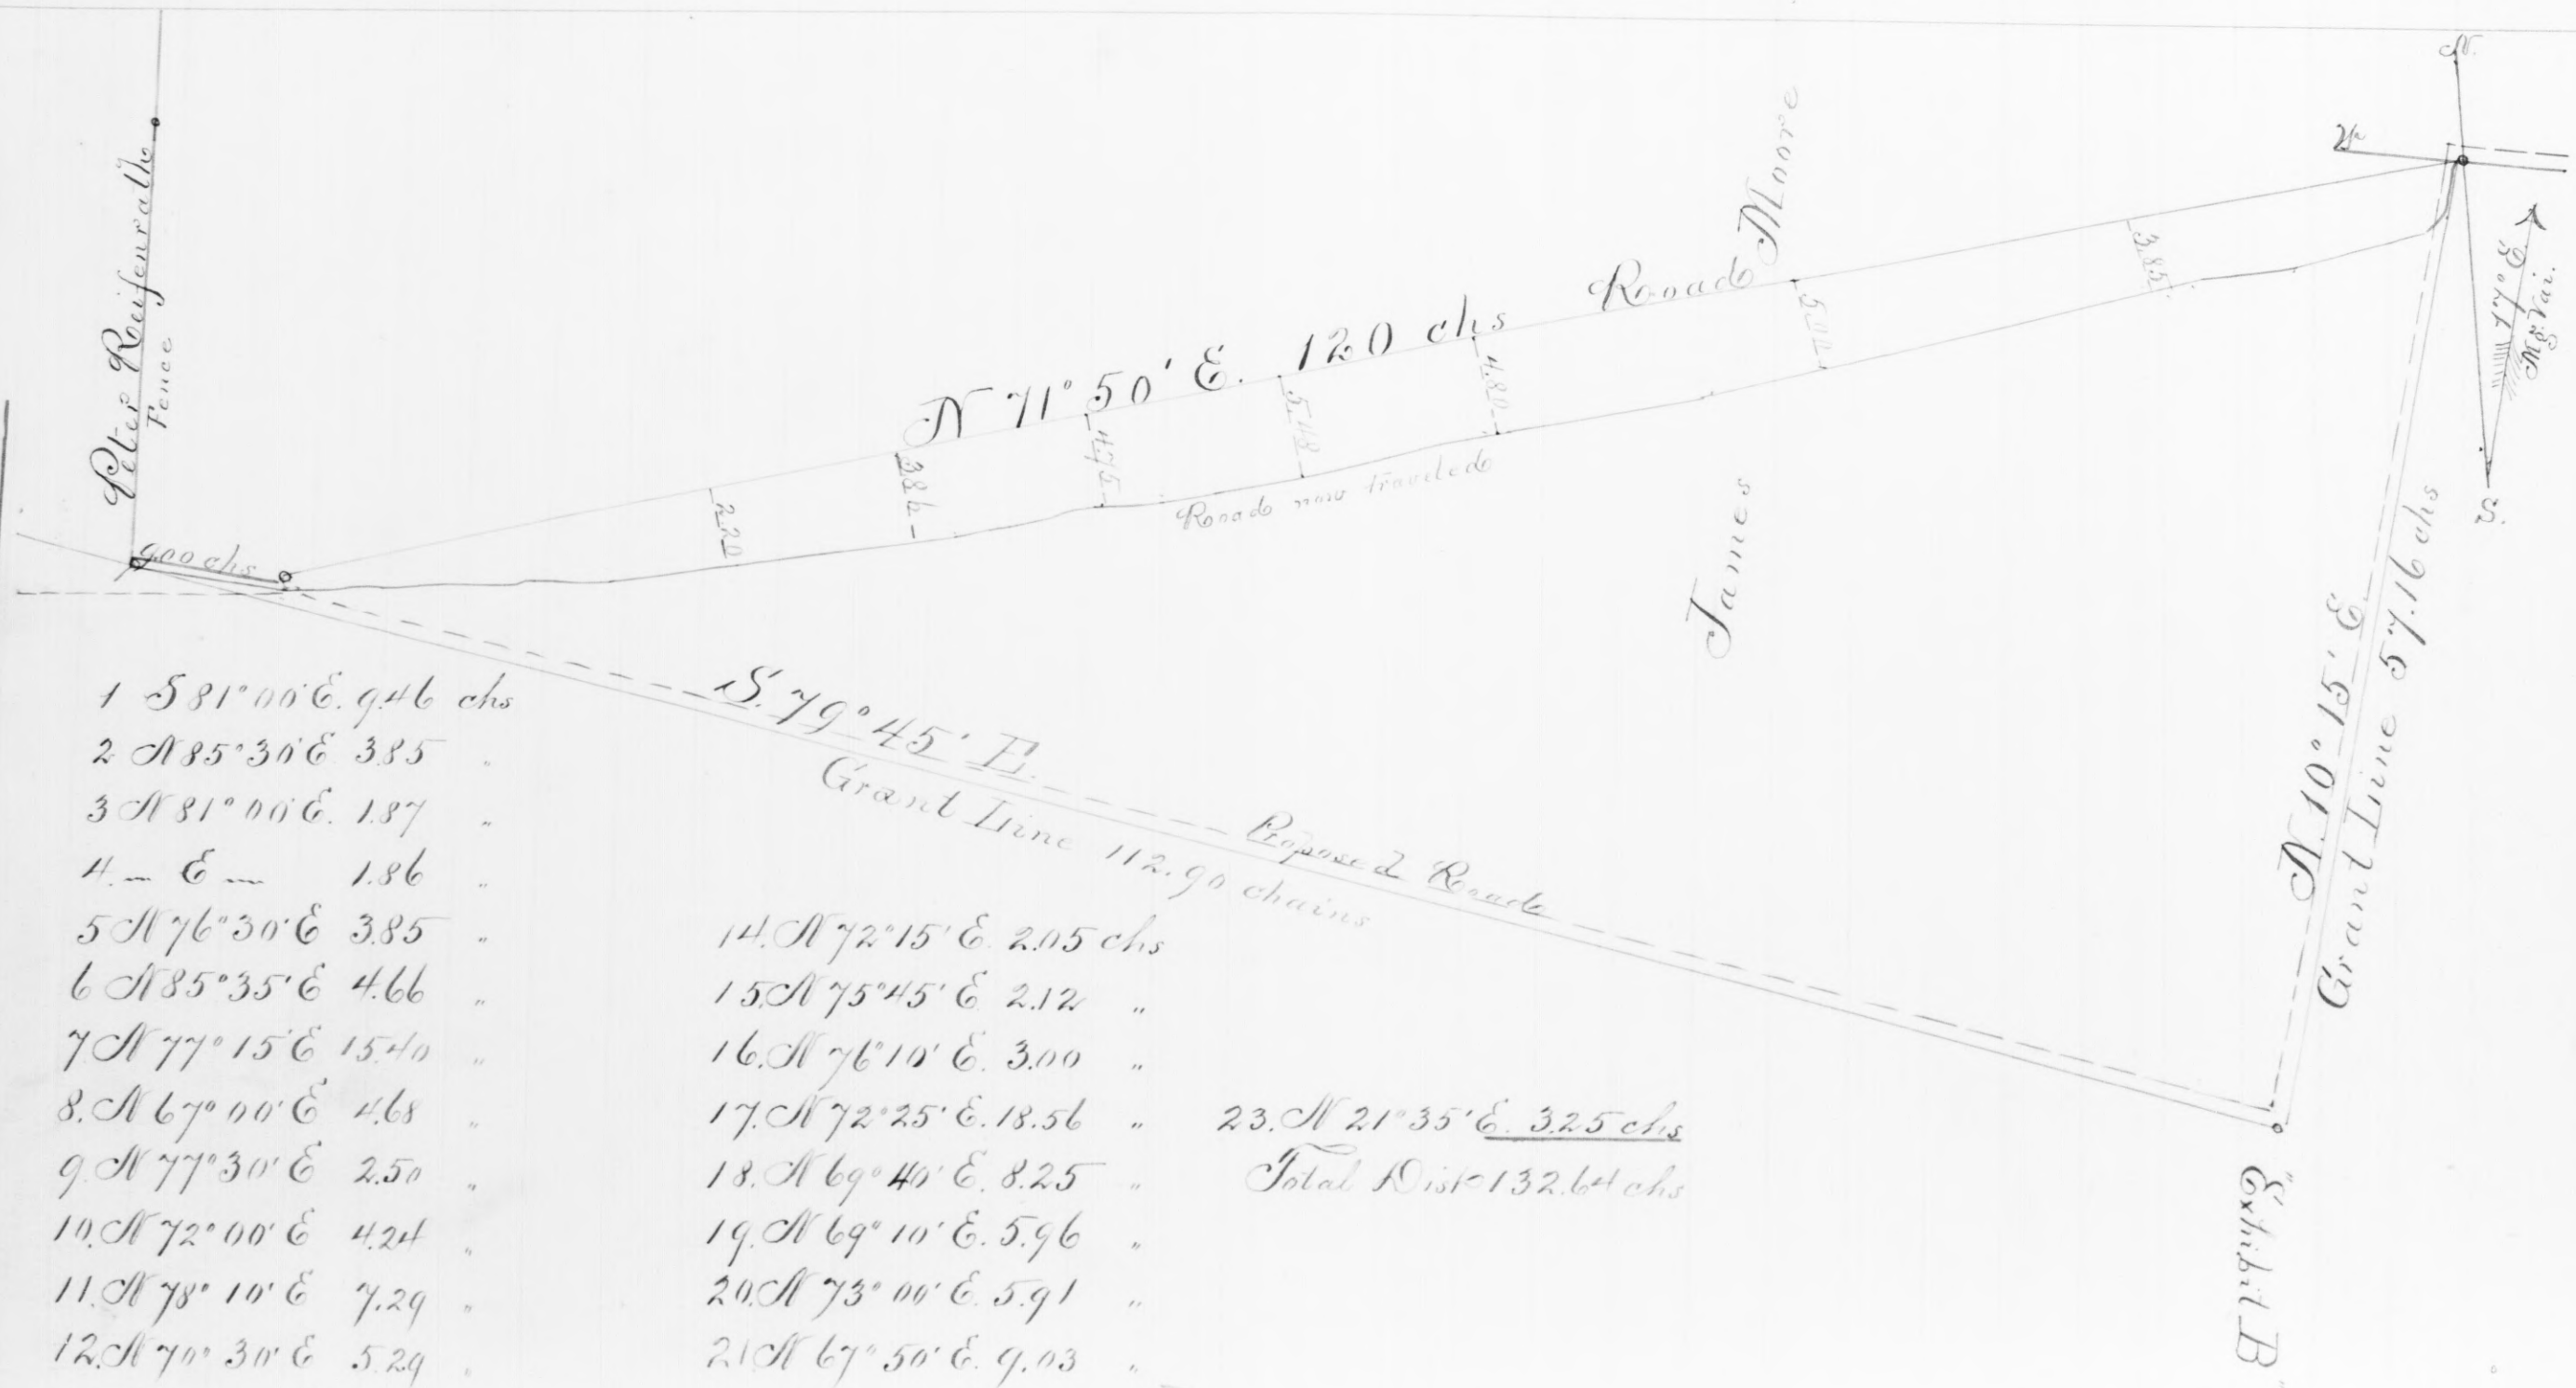

J. E. R. O'Farrell
M. B. Kinchloe
John G. Winter.

"Exhibit D"

I, James Moore of the County of Yolo and State of California being the owner of all the lands over which the proposed road prayed for by petition filed on the 13th day of May 1878, and marked Road No 1440 hereby consent to the establishment of the road as prayed for, waive all damages and give the right of way provided the people, through the Board of Supervisors abandon all claim of right to travel over my premises on any other route between the initial and terminal points of said proposed road.

Given under my hand this
3rd day of June 1878.

Yolo County, California:

We the undersigned viewers appointed to view & survey the roads prayed for in the petitions of Chas. Greene & others filed Aug 12th 1878, which roads is numbered 1441 do hereby report:

That before entering upon our duties we were severally duly sworn as appears by the affidavit preceding this report.

of said proposed road, ^{and} the name of the owner of each track of land over which the same passes.

That the said road lies in the County of Yolo ^{and} State of California, in Road District Number 2.

That the estimated cost of construction of said proposed road, as appears to us upon such view, is the sum of \$600⁰⁰

That we gave written notice of the proposed route to each owner of land over which the same passes as appears by the copy of said notice herunto attached, marked "Exhibit B," ^{and} made a part of this report.

That the following named land owners have not consented to give the right of way, ^{and} claim damages set opposite their respective names; ^{and} we estimate the actual amount of damage to each at the amount last stated after their respective names.

Name	Am't of Damage Claimed	Viewers Estimate of Am't Damages
W. M. Larue	250 ⁰⁰	250 ⁰⁰

### Report of Viewers

To the Hon. Board of Supervisors of Yolo County,  
California:

We, the undersigned viewers appointed to view and  
survey the Road prayed for in the petition of J. H. Dearing  
and others filed Dec 9<sup>th</sup> 1878, which road is numbered  
143 do hereby Report:

That before entering upon our duties we were severally  
duly sworn as appears by the affidavit preceding  
this report.

That on the 20<sup>th</sup> day of December 1878, we met  
and proceeded to view and lay out the said proposed  
Road, the field notes and plat of the survey of which  
are hereunto annexed, marked "Exhibit A", and made  
a part of this report; which field notes and plat  
correctly show, the course, termini, and length of

said proposed Road, and the name of the owner of each tract of Land over which the same passes.

That the said Road lies in the County of Golo, in Road District Number 3.

That the estimated cost of construction of said proposed Road as appears to us upon such view, is the sum of \$200<sup>00</sup>

That we gave written Notice of the proposed Route to each owner of Land over which the same passes, as appears by the copies of said Notice herunto attached marked "Exhibit B", and made, a part of this Report.

That the following named land owners have consented to give the right of way for said proposed Road over their lands, to-wit: C. La Due, F. Reusche, E. Woodard, W<sup>m</sup> Flynn, Owen Flynn, Emma Flynn, Mrs Mary Roth, J. Root, Geo. Woodard, Mrs Mike Demmerley, L. Buob, W<sup>m</sup> Buob, Jno Ritchie, Fritz Herman, as appears from said written consent attached hereto, marked "Exhibit C", and made a part of this Report.

That the following named land owners have not consented to give the right of way, and claim the amount of Damages set opposite their respective names; and we estimate the actual amount of Damage to each at the amount last stated after their respective names.

| Name               | Am't of Damage Claimed. | Viewers Estimate of Am't of Damage |
|--------------------|-------------------------|------------------------------------|
| C. Morgan          | \$500 <sup>00</sup>     | \$200 <sup>00</sup>                |
| Mrs John Demmerley |                         | 200 <sup>00</sup>                  |

That upon said view we became satisfied that said Road would be a great public convenience, that the same is laid out over the most practicable route; and we hereby recommend the establishment of the same in accordance with the field notes herewith presented.

We would further report that by the opening out of this Road, a great many land owners would

have a market easy of access. The Route of said proposed Road is good, and with slight expense could be opened and kept in good condition. It will be necessary to build one bridge which will not cost more than \$50<sup>00</sup> and also four culverts, at different points along the route at an estimated cost of \$25<sup>00</sup> each; We conclude that \$50<sup>00</sup> will be found sufficient to pay for the labor necessary in building Bridge and Culverts.

All of which is Respectfully Submitted.  
Dated Dec 20<sup>th</sup> 1878.

## Report of Viewers

To the Honorable Board of Supervisors of Yolo County California

We the undersigned viewers appointed to view and survey the road prayed for in the petition of Chas W Scott and others filed Nov 11<sup>th</sup> 1884 which road is numbered 180 do hereby report. That before entering upon our duties we were severally duly sworn as appears by the affidavit preceding this report.

That on the 4<sup>th</sup> day of December 1884 we met and proceeded to view and lay out the said proposed road the field notes and Plat of the survey of which are herewith annexed. Marked Exhibit A and made a part of this report. Which field notes and plat correctly show the course termini and length of said proposed road, and the name of the owner of each tract of land over which the same passes. That the said road lies in the County of Yolo and State of California in road District No 5. That the estimated cost of construction of said proposed road, as appears to us upon such view, is the sum of \$228.<sup>00</sup>

That we gave written notice of the proposed route to each owner of land over which the same passes, as appears by the copy of said notice herewith attached Marked "Exhibit B" and made a part of this report.

That the following named land owners have consented in writing to give the right of way for said proposed road over their Land to wit: as appears from said written consent attached hereto marked "Exhibit C" and made a part of this report.

That the following named land owners have not consented to give the right of way and claim

the amount of damages set opposite their respective names and we estimate the actual amount of damages to each at the amount last stated after their respective names

| Name          | amt of damages claimed               | Premises estimate of amt of damage   |
|---------------|--------------------------------------|--------------------------------------|
| E. R. Love    | \$100 <sup>10</sup> / <sub>100</sub> | \$100 <sup>10</sup> / <sub>100</sub> |
| J. D. Lutt    | \$331 <sup>00</sup> / <sub>100</sub> | \$200 <sup>00</sup> / <sub>100</sub> |
| J. A. Dearing | \$348 <sup>40</sup> / <sub>100</sub> | \$125 <sup>00</sup> / <sub>100</sub> |
| J. P. Grafton | \$345 <sup>40</sup> / <sub>100</sub> | \$115 <sup>00</sup> / <sub>100</sub> |

That upon said view we became satisfied that said road would be a great public convenience that the same is laid out over the most practicable route. But the damages which the parties owning the land along the route prayed for claim or even the amount that is estimated by the viewers appear to be greatly in excess of the benefits derived by the public. Therefore we have come to the conclusion that it would not be public policy to open said road. But as Mr Ponell is entirely closed in from any public road we think it would be only fair on the part of the County to purchase a strip of land along the East line from Mr E. R. Love wide enough to give Mr Ponell the necessary relief. We have suggested the land be taken from Mr Love because he only wants pay for his land while others ask pay for land and fencing

All of which is respectfully submitted

## Report of viewers

To the hon. Board of Supervisors of Yolo County California  
We the undersigned viewers appointed to view and survey the road proposed for in the petition of Chas Duncan and others filed Apr 13<sup>th</sup> 1885 which road is numbered 188 do hereby report.

That before entering upon our duties we were severally duly sworn as appears by the affidavit preceding this report

That on the 30<sup>th</sup> day of April 1885 we met and proceeded to view and layout the proposed road, the field notes and plat of the survey of which are hereunto annexed marked, Exhibit A. and made a part of this report which field notes and plat correctly show the course termini and length of said proposed road and the name of the owner of each tract of land over which the same passes

That the said road lies in the County of Yolo and State of California in Road District No 4

That the estimated cost of constructing said proposed road as appears to us viewers upon such view is the sum of \$125<sup>00</sup>

That we have given written notice of the proposed route to each owner of land over which the same passes, as appears by the copy of said notice herunto attached, marked Exhibit B. and made a part of this report

That the following named Land owners have consented <sup>in writing</sup> to give the right of way for said proposed road over their lands to wit:

A. J. Foxsen & Co. Rauffman and Chas Duncan  
as appears from said written consent attached hereto, marked Exhibit C. and made a part of this report

That the following named Land owners have not consented to give the right of way and claim the amount of damages set opposite their respective names, and we estimate the actual amount of damage to each at the amount last stated after their respective names

| Name.            | Amount of damages claimed. | Viewer estimate of amt of damage |
|------------------|----------------------------|----------------------------------|
| Faulkner & Smith | 250.                       | 62 <sup>50</sup> 100             |
| E. Cook          | 250                        | 62 <sup>50</sup> 100             |

That upon said view we became satisfied that said road would be a great public convenience, that the same is laid out over the most practicable route and we hereby recommend the establishment of the same in accordance

with the field notes herewith presented

We would further report that Chas Duncan, A Kauffman and A J Pounsant without the establishment of this road have no way of getting out to market. Also that J. Martin one of the property owners on the line of the proposed road has set no amount as to the damage done his property but expresses himself as being willing to abide by the decision of the Board as to what the valuation of his damages shall be. Your viewers are in doubt about their authority for setting the said Martin's damages as we find his name appended to the petition for the laying out of the proposed road and therefore leave it to your own judgment in the matter.

## Report of Viewers

To the Hon Board of Supervisors of Gold County California

We the undersigned viewers appointed to view and survey the Road prayed for in the petition of P. Craig and others filed April 8<sup>th</sup> 1885, which road is numbered 187 do hereby report.

That before entering upon our duties we were severally duly sworn as appears by the affidavit preceding this Report

That on the 25<sup>th</sup> day of May 1885 we met and proceeded to view and lay out the proposed road, the field notes and plat of the survey of which are herewith annexed marked 'Exhibit A' and made a part of this Report, which field notes and plat correctly show the course, terminus and length of said proposed Road and the name of the owner of each tract of land over which the same passes

That the said Road lies in the County of Gold and State of California in Road District Number 5.

That the Estimated Cost of Construction of said proposed road as appears to us upon such view is the sum of \$250<sup>00</sup>

That we gave written notice of the proposed route to each owner of land over which the same passes as appears by the copy of said notice herewith attached, <sup>marked Exhibit B</sup> and made a part of this report

That the following named Land owners have consented in writing to give the right of way for said proposed road over their lands to wit: Robert Clooney, H. Epstein, Martha Poorman as appears from said written consent attached hereto, marked 'Exhibit C' and made a part of this Report.

That the following named Land owners have not consented to

give the right of way over their lands, and claim the amount of damages set opposite their respective names, and we estimate the actual amount of damage to each at the amount last stated after their respective names.

| Name          | Am't of Damage Claimed | Various Estimate of amt. damage |      |
|---------------|------------------------|---------------------------------|------|
| Hopkin Bros   |                        | \$250 <sup>00</sup>             | \$50 |
| E E McHenry   | \$165 <sup>00</sup>    | \$85 <sup>00</sup>              | 1-50 |

| Mrs Stacy     | none                   | none                            |      |

That upon said view we became satisfied that said road would be a great public convenience that the same is laid out over the most practicable route; and we hereby recommend the Establishment of the same in accordance with the field notes herewith presented:

We would further report that we recommend the route be changed from the petition as such change would in a financial sense be beneficial to the public at large. The proposed change commences at Robert Clornegs N.W. Corner and runs through the lands of H Epstein South of the Grant line South  $82^{\circ}10'46''$  chains there by N  $63^{\circ}30'16''$  chains, thence N  $35^{\circ}30'16''$  E 1.26 chains to intersect the Grant line. This divergence from the petition was made for the purpose of ~~to overcome~~ the high banks of an arroyo situated at that point and on the line called for in the petition. H. Epstein has consented by deed of right of way to the proposed change, which deviation from the course called for in the petition is shown by the field notes and map herewith appended and made a part of this Report. All of which is Respectfully submitted.

That the estimated cost of construction of said proposed road as appears to us upon such view is the sum of \$500-

That we gave written notice of the proposed route to each owner of land over which the same passes as appears by the copy of said notice herewith attached and marked Exhibit B and made a part of this report

That upon such view we became satisfied that said road would be a great public convenience, that the same is laid out over the most practicable route, and we hereby recommend the Establishment of the same in accordance with the field notes herewith presented.

We would further report, that your Viewers would recommend that, in as much as Mr Hensley seems to be unalterably opposed to the road going through his lands, that you discharge from the petition so far as to throw the whole road on Mr S P Barnes when it is proposed to pass between the lands of Mr Hensley on the East and Mr Barnes on the West. So that end your viewers have awarded Mr Barnes \$350<sup>00</sup> - which is the amount asked by him if the change is made.

# Report of Viewers

To the Honorable Board of Supervisors  
of Yolo County, California.

We the undersigned, viewers appointed to view and survey the road prayed for in the petition of Geo. B. Curtis and others filed April 13, 1885, which road is numbered 184, do hereby report:

That before entering upon our duties, we were severally duly sworn, as appears by the affidavit preceding this report.

That on the 3<sup>rd</sup> day of May, 1885, we met and proceeded to view and lay out the said proposed road, the field notes and plat of the survey of which are herewith annexed, marked "Exhibit A" and made a part of this report; which field notes and plat correctly show the course, termini, and length of said proposed road, and the name of the owner of each tract of land over which the same passes.

That the said road lies in the County of Yolo and State of California, in road District Number 5.

That the estimated cost of construction of said proposed road as appears to us upon such view, is the sum of \$1,000.

That we gave written notice of the proposed route to each owner of land over which the same passes, as appears by the copy of said notice herewith attached, marked

"Exhibit B", and made a part of this report

That the following named landowners have consented in writing to give the right of way for said proposed over their lands, to-wit;

C. E. St Louis, E. C. Cooper, <sup>and</sup> S. Cramer, as appears from said written consent attached hereto, marked, "Exhibit C", and made a part of this report

That the following named land owners have not consented to give the right of way, and claim the amount of damages set opposite their respective names; <sup>and</sup> we estimate the actual amount of damages to each at the amount last stated after their respective names:

| Name                       | Am't of Damage Claimed | Viewers Estimate of Am't Damage |
|----------------------------|------------------------|---------------------------------|
| None of J A Hutton's land. |                        |                                 |

That upon said view we became satisfied that said road would be a great public convenience, that the same is laid out over the most practicable route; and we hereby recommend the establishment of the same in accordance with the field notes herewith presented

We would further report that we would recommend the Board of Supervisors to change the width of the proposed road from 50 feet to 40 feet, as after careful investigation and enquiry we find a 40 feet Road would be more conducive to the wishes of property owners on the line of said proposed Road than the width prayed

for in the petition. We would further state that all the property owners along said line agree to <sup>said</sup> the change, giving the right of way, with the exception of ~~Mr~~ <sup>the</sup> Hutton, who is a non-resident, but your viewers apprehend no ~~opposition~~ from her, as we understand she has always expressed herself as favorable to a public highway along this line.
